

Go for Gold

Level

Beginners: Simple CSS

Green difficulty level.

Time

15 to 30 minutes

Challenge

Replace the placeholders in the CSS file with the correct element and attribute names so that the HTML file looks like that on the worksheet

Progression

Change the background colour of the winner's row to green

Change the background colour of the second place row to yellow (this requires the Ninja to add a new class attribute in the HTML and selector in the CSS)

Create your Premier League (or whatever sport) predictions for the top places at the end of the season

Aims

Understand two key concepts of CSS

Selectors referencing a element

Selectors refering a class attribute

Allow more advanced Ninjas some practice with table markup
